Modular Decorative Screen Panels

FERN™

BOTANICAL COLLECTION

Every Pattern Tells a Story.

A layered botanical screen inspired by the quiet rhythm of fern foliage.

FERN™ captures the layered rhythm of the forest floor, where overlapping fronds create texture, movement and filtered light. Inspired by the quiet beauty of fern foliage, the pattern brings a calm and natural character to contemporary outdoor spaces.

Its flowing botanical forms soften strong architectural lines while maintaining a clean and considered structure. The layered design creates a sense of shelter and privacy, forming a relaxed backdrop for courtyards, decks, pools and outdoor entertaining areas.
